

30 Days of Weather

Have fun this month being a meteorologist!

A meteorologist is a scientist that deals with atmosphere (gas layers around the Earth aka air), especially weather.

For 30 days, track what's in the atmosphere. Draw a picture or write what you see or feel.

Your squares might look like these:

Visit this cool website to learn more about the clouds and weather you see in the sky:

<https://www.almanac.com/kids#weather>

Turn in your weather report to Spooner Library by October 4th (Monday) to qualify for a prize! Does not need to be complete to win!
